# Welcome to promogator

The best online promotional  
products experience

Promogator is an online marketplace for promotional products. Shop from over 5,000+ vendors across the globe. We have created a simple online ordering system to better enhance your experience.

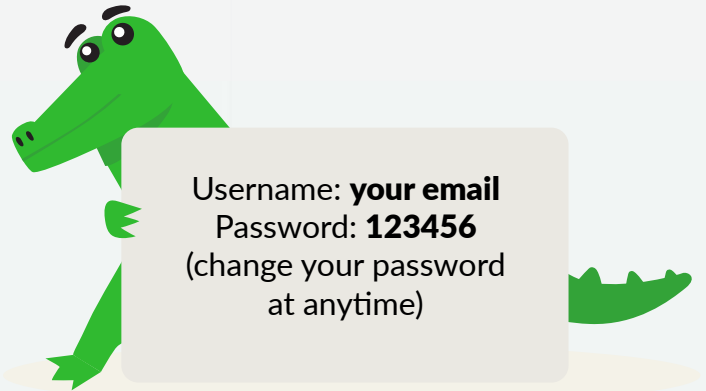

You can check prices, quote a job, price match a competitor or make an offer all from inside Promogator. View our latest promo products!

# Getting Started

To get started please enter your login information that was sent in the **welcome email**.

# WE MAKE IT EASY TO ORDER CUSTOM PRINTED MERCHANDISE

Enter the **Item#** from our pdf catalog inside our online platform to get quotes and place orders.

At any time you SCAN or TAP your phone to our NFC Enabled Catalog to view the mobile version of the platform.

# TO START ORDERING, **CLICK AND DRAG** THE SLIDER TO THE DESIRED QUANTITY NEEDED

The tablet screen displays a product page for a custom laser engraving. At the top, a slider is set to 72, with a text prompt "Click & Drag Slider To Desired Quantity". Below the slider, the price is listed as \$977.76, with a note "Guaranteed Lowest Price" and "Printed & Shipped by 12/17/2021". There are two main buttons: "ADD TO CART" (green) and "BUY NOW" (orange). Below these are two payment options: "PayPal" (yellow) and "Apple Pay" (black). A section titled "Express-checkout" is visible. Below the payment options, a message states "You Save \$0.00 (over min quantity pricing)". A section titled "Product color" allows users to select a color from a palette of six options: Green, White, Blue, Black, Silver, and Grey. Below the color selection, there are two rows of sliders for "pieces of material per color". At the bottom, a "Print Method" dropdown menu is set to "Custom Laser Engraving".

Choose your payment method

Select color of your product. You may split your colors

Once you are ready to pay, add your shipping address or set the order for pickup!

# Screen printing

Screen printing is a technique that involves using a woven mesh screen to support an ink-blocking stencil to receive a desired image.

The screen stencil forms open areas of mesh that transfer ink or other printable materials by pressing through the mesh as a sharp-edged image onto a substrate (the item that will receive the image).

A squeegee is moved across the screen stencil, forcing ink through the mesh openings to wet the substrate during the squeegee stroke. As the screen rebounds away from the substrate, the ink remains. It is the process of using a mesh-based stencil to apply ink onto a substrate, whether it is t-shirts, posters, stickers, vinyl, wood, or other materials.

Send us your file in vector format or high-resolution images. If you have a die line you can indicate it in order.

Our team will send you back a high-resolution proof of your file for your approval. Once you sign off on the artwork, we will move your order into production.

You will be updated with real-time photos of your products.

# HOT STAMP - ART GUIDELINES & FOIL SELECTION

## Hot Stamp Artwork Guidelines

- A movement of about 1/32" to 1/16" per color will occur. Designs with tighter registration must be pre-approved.
- More than 1 color imprinting is not available on some products.
- Minimum requirement for line thickness is 1 stroke point.
- Reverse out printing line thickness is 2 stroke points to avoid losing fine details.
- Artwork with a border, large coverage or fine print is not recommended as it may not produce a good quality imprint.
- Boxed artwork exceeding 5" x 5" will need approval.
- Halftones are not recommended.
- All artwork submitted is subject to review.

## Foil Color Selection

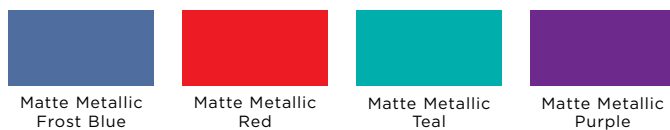

**PMS COLOR MATCH CHARGE:** PMS matching is NOT available on Hot Stamp.

**FOIL CHANGE CHARGE:** \$30 (g)

**PLATE CHANGE CHARGE:** \$20 (g)

\*Due to the many variations in monitors and browsers, color samples may appear different on different monitors. We do our best to make sure our samples are as close to the product as possible, but cannot guarantee that what you see is an exact sample. The colors indicated are only reference approximations of actual colors hot stamped on white bags. Bag color will alter the shade, tone or hue of the foil, especially light color foil, such as white, on dark color bags. Certain foil and bag color combinations are not recommended. Please call for more details or to order foil swatch samples.

**NOTE:** Our imprinting processes operate in a post-production environment in which imprinting takes place on a product which is already constructed. In some cases folds and creases produced in manufacturing the bags result in some restrictions that may impact certain artwork's printability and available imprint area. Also, artwork position on post-printed products may vary slightly from product to product due to manual feeding.

The colors on this page are 4 color process simulations of Pantone colors or Foil colors. Actual colors may vary.

# Pad Printing

Pad printing is a unique process in which a 2d image logo or text gets transferred onto a 3-D part with the help of a silicone pad. The process is great when you have to mark an item or put your logo on a part that is not a flat surface.

The quality of your imprint depends upon the quality of artwork supplied to us! All orders requiring artwork must be sent in as Black and White CAMERA READY vector art. Artwork can be submitted via E-Mail, on CD, or FTP (File Transfer Protocol). Laser copies of 1200 DPI resolution are also acceptable. For Four-Color Artwork (ColorBrite items), please refer to our ColorBrite specifications on the web. Whether you are Mac or PC-based, we can accept your graphic files if you meet the requirements listed. To ensure this and avoid delays or art charges please adhere to our specifications.

Send us your file in vector format or high-resolution images. If you have a die-line you can indicate it in order.

Our team will send you back a high-resolution proof of your file for your approval. Once you sign off on the artwork, we will move your order into production.

You will be updated with real-time photos of your products.

UNITED

### NIKE DRI-FIT SWOOSH FRONT CAP

548533 \$19.98

The contrast welded Swoosh design trademark takes front and center on this unstructured, moisture-wicking cap. A low profile, contrast underbill and hook and loop closure complete this sporty design. Made of 100% Dri-FIT polyester.

### NIKE SWOOSH LEGACY 91 CAP

779797 \$21.98

With a smooth front panel and stretch for comfort, this moisture-wicking cap continues a legacy of performance. This popular cap has been modernized from its original 1991 design with lightly structured front panels and unstructured mid and back panels. Features a mid-profile and a hook and loop closure. The contrast Swoosh design trademark is embroidered on the bill. Made of 5.6-ounce, 90/10 polyester/spandex.

### NIKE SPHERE DRY CAP

247077 \$19.98

Nike Sphere Dry technology ensures maximum moisture control and quick-drying performance. This cap has an unstructured, low profile design with a hook and loop closure. The contrast Swoosh design trademark is embroidered on the bill and center back. Made of 100% polyester.

#### NIKE SPHERE DRY

### NIKE DRI-FIT MESH SWOOSH FLEX SANDWICH CAP

333115 \$19.98

ADULT SIZES: S/M, M/L, L/XL

Only Nike could engineer a moisture-wicking cap this flexible and stylish. This cap has a contrast sandwich bill and a structured, mid-profile design. The Swoosh Flex sweatband ensures an exceptional fit. The contrast Swoosh design trademark is embroidered on the bill and center back in the same color as the trim. Made of 100% polyester knit mesh.

### NIKE DRI-FIT SWOOSH PERFORATED CAP

429467 \$23.98

Maximum breathability is achieved with Dri-FIT moisture management technology and perforated mid and back panels. A contrast underbill reduces sun glare. This cap has an unstructured, low profile design with a hook and loop closure. The contrast Swoosh design trademark is embroidered on the bill and center back. Made of 100% Dri-FIT polyester.

### NIKE UNSTRUCTURED TWILL CAP

580087 \$13.98

The perfect classic look with a contrast underbill as engineered by Nike. This cap has an unstructured, mid-profile design and a self-fabric closure with buckle. The contrast Swoosh design trademark is embroidered on the center back. Made of 58/42 cotton/poly twill.

## AIR PUPPETS

An Air Puppet is not just a flappy giant puppet to entertain kids and traffic. It should be a 20 FT Tall custom billboard to incorporate the look and feel of your company. Our company will place your logo on the chest to maximize any other media campaigns you are running, a main extra large standout service message to let everyone who passes by know what service is conveniently located on a route they commonly travel and we also can put a different message on the back so you can give one message to one direction of traffic and another to the other side of traffic. We also encourage you to put selling points on the arms.

Custom Designs \$125. Custom indicates a unique creative design, seldom required as we can and do often jazz up any air dancer. We don't just put block lettering on them.

## ROOFTOP GORILLAS

There is a reason these are still popular. People get results. We make a heavy-duty commercial-grade vinyl gorilla balloon designed to give you years of use. With the ability to change banners on the chest and arms, commuter traffic will often look over to see what the big ape has to say this week.

You can see the difference and no one will have any trouble seeing you. Change up the message regularly to keep people looking to see what your big ape has to say this time. It's a proven strategy and keeps people looking and on the mundane drive to work, it is something motorists look forward to. Own this for the cost of a one-month rental.

Item # rooftop-gorilla-01

Our gorilla rooftop balloons are ideal for grand openings, general advertising, landmark status, promotions, and daily use. These are built and designed to be left on your rooftop for years and the changeable banner on both the chest and arms will allow multi-event / promotional usage. Easier to set up and take down than you may realize. Can be roof-mounted or ground-mounted.

Made right here and overbuilt for rental and commercial application. Ready in as little as one week.

## Custom Shaped Inflatables

The jump from a traditional hot air-shaped rooftop to a unique custom-made inflatable is not as much as you may think, yet the increased attention and immediately gained landmark status will fast make the additional investment worthwhile. If you use it regularly, you will find that people will refer to it when giving directions and each passing car will identify your business daily as the one with the 15 FT Happy Face Guy for example. Another way to keep their daily attention is to change your banner message to read new promotions or sometimes just funny things that give the drivers a reason to look and see what it says today. Commuting traffic passing in an almost zombie-like state, with blinders on and with the resignation that it will be another mundane drive to work. Your inflatable will become a point of interest to each driver as they pass by. In addition, you can anchor other forms of media advertising such as print campaigns and radio ads to reference the giant inflatable in your ads, further reinforcing the effectiveness of your other ad campaigns. Other things you can do is set up a vendor tent with your name and graphics out front staffed with a person and promotional materials, hang a banner, set up an air puppet to wave around out in front of the street, and even a 7 ft helium sphere or advertising blimp with art flying 125 FT over your location. If you want a major campaign of customer traffic, just try some or all of the above.

These are commercial grade 7.5, 08 to 10 oz vinyl inflatables. We do not use polyester or nylon. Such units will blow apart in days or weeks. Our custom inflatables are built for years of service. The photo gallery is only a sample of a few we have put together over the years. All we need is a concept or an image as small as a postage stamp and our creative team will make your inflatable a turn-key solution. These require 30 days from art approval for completion, although we have made units in as little as 10 days.

# Need a custom shape inflatable?

Our team will make sure the 2D and 3D and final product look the same, we try our hardest to achieve the goals of our clients. We use high-quality PVC and include a repair kit with every inflatable job that is purchased. It's important with a PVC inflatable balloon that you plan with the message you are trying to portray before you pull the trigger on the product, we don't guarantee any results but 95% of our customers have told us they have increased business since their purchase.

# Heat Transfer

Promogator is proud to offer services in digital heat transfer printing and direct to film transfer technologies. Inside our platform if the product qualifies for a transfer print as the recommended print method we will offer it for you at no additional cost. A heat transfer is great for an application for a low cost shirt and high quality application. We offer heat transfers in the following product lines: Hats, Caps, Apparel, Masks and small bag items. If your logo is multiple color instead of paying for each print and setup charge for multiple prints you can do a full color heat transfer with unlimited types of printing. Inside of our platform we also allow you to bring your own items in. If you have a product you want to send in we can charge you just for the heat transfer printing. Let us know how we can help you with any custom printed order. Thanks for browsing we look forward to working with your company.

All of our heat transfer applications are made overseas and requires 2-3 weeks production submit for quoting. MOQ 500
